

REMARKS

The Advisory Action mailed April 28, 2004 has been received and reviewed. Applicant appreciates the assistance provided by the Examiner during the phone interview on April 26, 2004. In the specification, paragraph [0001] is proposed to be amended to correct the cross reference with regard to International Patent Application PCT/NL96/00244. No new matter has been added.

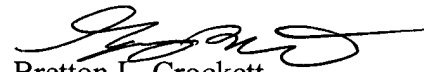

The Advisory Action states that during the phone interview, undersigned counsel "agreed to file a TD over the '652 patent" and that "potential ODP issues with US 6692966 and 6265212 were discussed" and it was "indicated that a TD will be filed to correct this ODP issues." With respect to US Patent 6,306,652, a Terminal Disclaimer was provided by applicant January 28, 2004. A copy of this terminal disclaimer is included as Exhibit 1. With respect to US Patent 6,692,966 and US Patent 6,265,212, the required terminal disclaimers are provided herewith.

The Advisory Action notes that evidence showing "that the inventive entity between the '212 patent and the present application is the same" is to be submitted. Attached as Exhibit 2 is a Petition for Issuance of a Certificate of Correction or Renewed Petition for Correction of Inventorship in Patent Pursuant to 35 U.S.C. 256 (37 C.F.R. § 1.324), which was submitted to the Office on April 28, 2004. As shown by this Petition and the Exhibits thereto, on July 8, 2003, a petition to correct inventorship in the '212 patent was filed, and a Communication entering and accepting this petition was mailed on October 7, 2003. As the requested Certificate of Correction has not yet issued, the second Petition has been presented. Applicants respectfully submit that this petition, with the supporting documents as to inventorship and the statement that inventorship error occurred without deceptive intent provide the evidence of inventor identity required in the Advisory Action.

Serial No. 10/038,271

It is requested the amendment be entered and the application allowed. Respectfully submitted,
